STATEMENT BY THE ACCOUNTING AND CORPORATE REGULATORY AUTHORITY

In our opinion, the accompanying financial statements of the Accounting and Corporate Regulatory Authority (the "Authority") as set out on pages 5 to 27 are drawn up so as to present fairly, in all material respects, the state of affairs of the Authority as at 31 March 2015, and the results, changes in equity and cash flows of the Authority for the financial year then ended.

INDEPENDENT AUDITOR'S REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS OF ACCOUNTING AND CORPORATE REGULATORY AUTHORITY

For the financial year ended 31 March 2015

REPORT ON THE FINANCIAL STATEMENTS

The accompanying financial statements of the Accounting and Corporate Regulatory Authority (the "Authority"), set out on pages 5 to 27, have been audited under my direction. These financial statements comprise the statement of financial position as at 31 March 2015, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The management is responsible for the preparation and fair presentation of these financial statements in accordance with the provisions of the Accounting and Corporate Regulatory Authority Act (Cap. 2A, 2005 Revised Edition) (the "Act") and Statutory Board Financial Reporting Standards, and for such internal controls as management determines are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit. The audit was conducted in accordance with Singapore Standards on Auditing. Those standards require that ethical requirements be complied with, and that the audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements are properly drawn up in accordance with the provisions of the Act and Statutory Board Financial Reporting Standards so as to present fairly, in all material respects, the state of affairs of the Authority as at 31 March 2015 and the results, changes in equity and cash flows of the Authority for the financial year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Management's Responsibility for Compliance with Legal and Regulatory Requirements

The management is responsible for ensuring that the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act. This responsibility includes implementing accounting and internal controls as management determines are necessary to enable compliance with the provisions of the Act.

Auditor's Responsibility

My responsibility is to express an opinion on management's compliance based on the audit of the financial statements. The audit was conducted in accordance with Singapore Standards on Auditing. Those standards require that the compliance audit be planned and performed to obtain reasonable assurance about whether the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act.

A compliance audit includes obtaining an understanding of the internal controls relevant to the receipts, expenditure, investment of moneys and the acquisition and disposal of assets; and assessing the risks of material misstatement of the financial statements from non-compliance, if any, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Because of the inherent limitations in any accounting and internal control system, non-compliance may nevertheless occur and not be detected.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my opinion on management's compliance.

Opinion

In my opinion:

- (a) the receipts, expenditure, investment of moneys and the acquisition and disposal of assets by the Authority during the financial year are, in all material respects, in accordance with the provisions of the Act; and
- (b) proper accounting and other records have been kept, including records of all assets of the Authority whether purchased, donated or otherwise.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2015

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

The financial statements were approved by the members of the Board of the Authority on 29 June 2015.

1. GENERAL

The Accounting and Corporate Regulatory Authority (“the Authority”) was established on 1 April 2004 under the Accounting and Corporate Regulatory Authority Act (Cap. 2A, 2005 Revised Edition) and is under the purview of the Ministry of Finance. As a statutory board, the Authority is subject to the directions of the Ministry of Finance and is required to implement policies and policy changes as determined by the Ministry of Finance and other Government Ministries such as the Prime Minister’s Office from time to time.

The principal activities of the Authority are:

- (a) to administer the Accountants Act (Cap. 2, 2005 Revised Edition), Business Registration Act (Cap. 32, 2004 Revised Edition), Companies Act (Cap. 50, 2006 Revised Edition), Limited Liability Partnerships Act (Cap. 163A, 2006 Revised Edition) and Limited Partnerships Act (Cap. 163B, 2010 Revised Edition);
- (b) to report and make recommendations to, and advise the Government on matters relating to the registration and regulation of business entities and public accountants;
- (c) to establish and administer a repository of documents and information relating to business entities and public accountants and to provide access to the public to such documents and information;
- (d) to represent the Government internationally in respect of matters relating to the registration and regulation of business entities and public accountants;
- (e) to promote public awareness about new business structures, compliance requirements, corporate governance practices and any other matters under the purview of the Authority;
- (f) to provide a responsive and forward-looking regulatory environment for business entities and public accountants conducive to enterprise in Singapore;
- (g) to promote, facilitate and assist in the development of the accountancy sector, including studying, reporting, making recommendations to and advising the Government on all matters relating to the development and promotion of the accountancy sector; and
- (h) to carry out such other functions as may be conferred on the Authority by the Accounting and Corporate Regulatory Authority Act (Cap. 2A, 2005 Revised Edition).

The registered office and principal place of operation of the Authority is located at 10 Anson Road, International Plaza, #05-01/15, Singapore 079903.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The financial statements of the Authority have been prepared in accordance with the provisions of the Accounting and Corporate Regulatory Authority Act (Cap. 2A, 2005 Revised Edition) and the Statutory Board Financial Reporting Standards (“SB-FRS”).

The financial statements are presented in Singapore dollars (S\$) which is also the functional currency. They are presented on the historical cost basis except for certain financial assets and liabilities as disclosed in the accounting policies below.

The preparation of the financial statements in conformity with SB-FRS requires management to exercise its judgement in the process of applying the Authority’s accounting policies. It also requires the use of accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenditure during the financial year. Although these estimates are based on management’s best knowledge of current events and actions, actual results may ultimately differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

New or revised accounting standards effective in 2014

The new or revised SB-FRS mandatory for application did not have any material impact on the Authority’s financial statements.

New or revised accounting standards not yet effective

Certain new standards and amendments to existing standards have been published and are mandatory for the Authority’s accounting periods beginning on or after 1 January 2015 or later periods and which the Authority has not early adopted. The Authority anticipates that the adoption of these standards and amendments will not have a material impact on the Authority’s financial statements.

(b) Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets. Projected cost of dismantlement, removal or restoration are included as part of the cost of property, plant and equipment if there is obligation for dismantlement, removal or restoration as a consequence of acquiring or using the asset.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the asset will flow to the Authority and the cost of the asset can be measured reliably. All other repairs and maintenance are charged to income or expenditure during the financial year in which they are incurred.

Assets costing less than S\$2,000 per item are charged to income or expenditure in the year of purchase.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2015

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(b) Property, plant and equipment and depreciation (cont'd)

Depreciation on property, plant and equipment is calculated on a straight-line basis to write off the cost less residual value of the assets over their estimated useful lives as follows:

Furniture and fittings	8 years
Micrographic equipment	8 years
Audio visual equipment	5 years
Office equipment	5 years
Computer hardware and system	3 to 5 years

The depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate, at each financial year-end. The effects of any revision are recognised in income or expenditure when the changes arise.

On disposal of an item of property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to income or expenditure.

(c) Intangible assets and amortisation

Intangible assets consist mainly of computer software and development costs for various computer application systems. They are capitalised on the basis of the costs incurred to bring to use or develop the specific software. Direct expenditure which enhances or extends the performance of computer software beyond its specifications and which can be reliably measured is recognised as a capital improvement and added to the original cost of the software. Costs associated with maintaining computer software are recognised as an expense as incurred.

Intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is calculated on a straight-line basis to write off the cost of the intangible assets over their estimated useful lives of 5 years. The amortisation period and method are reviewed at each financial year-end. The effects of any revision are recognised in income or expenditure when the changes arise.

On disposal of an item of intangible assets, the difference between the net disposal proceeds and its carrying amount is taken to income or expenditure.

(d) Development projects-in-progress

Development projects-in-progress relate to projects on computer systems. No depreciation or amortisation is provided for development projects-in-progress until they are transferred to property, plant and equipment or intangible assets.

(e) Impairment of non-financial assets

Property, plant and equipment, intangible assets and development projects-in-progress are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the higher of its fair value less cost to sell and its value in use. A cash-generating unit is the smallest identifiable asset group that generates cash inflows that are largely independent from other assets and groups.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(e) Impairment of non-financial assets (cont'd)

An impairment loss is recognised in income or expenditure if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses recognised in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of any accumulated depreciation or amortisation, if no impairment loss has been recognised. Reversal of impairment loss is recorded in income or expenditure.

(f) Trade and other receivables

Trade and other receivables are initially recognised at fair value plus transaction costs and subsequently carried at amortised cost using the effective interest method, less allowance for impairment. They are included in current assets, except those maturing later than 12 months after the reporting period are classified as non-current assets. Trade and other receivables are derecognised when the rights to receive cash flows from the customers have expired or have been received.

An allowance for impairment is established when there is objective evidence that the Authority will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the allowance is the difference between the carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The amount of the allowance is recognised in income or expenditure.

When the asset becomes uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognised against the same line item in income or expenditure.

The carrying amounts recorded at the end of the reporting period approximate their fair values and are not expected to be significantly different from the values that would eventually be received.

(g) Cash and cash equivalents

Cash and cash equivalents comprise cash and bank balances and deposits maintained with Accountant-General's Department that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

(h) Trade and other payables

Trade and other payables are initially measured at fair value less transaction costs and subsequently measured at amortised cost using the effective interest method.

The carrying amounts recorded at the end of the reporting period approximate their fair values and are not expected to be significantly different from the values that would eventually be settled.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2015

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(i) Provisions

Provisions are recognised in the Statement of Financial Position when the Authority has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate, taking into consideration the time value of money. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

(j) Income recognition

Company registration and related fees and business registration and related fees are recognised when transacted.

Income from fines and penalties is recognised at the point of collection of the settlements.

Information service fees are recognised when information is provided.

Interest income is recognised on a time-proportion basis using the effective interest method.

Agency fee is recognised over the period in which the service is rendered.

All other fees are recognised on the accrual basis as and when earned.

(k) Employee benefits

(i) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Authority pays fixed contributions into separate entities such as the Central Provident Fund. The Authority has no further payment obligations once the contributions have been paid. The Authority's contributions are recognised as staff costs when they are due.

(ii) Employees' leave entitlements

Employees' entitlements to annual leave are recognised when they accrue to the employees. A provision is made for leave earned by the employees as a result of services rendered up to the end of the reporting period.

(iii) Pension benefits

Provision for pension is made for the payment of pension benefits to pensionable officers under the provisions of the Pensions Act (Cap. 225, 2004 Revised Edition). The cost of pension benefits due to pensionable officers is determined based on the discounted present value of expected payouts to be made by the Authority in respect of services provided by these pensionable officers up to the end of the reporting period. The discount rate is the yield at the reporting date on government bonds that have maturity dates approximating the tenure of the related pension obligation. Any actuarial gain or loss arising from the valuation of pension provision is immediately recognised as other comprehensive income or expense not reclassified subsequently to income or expenditure.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(l) Operating leases

Leases of rental of office premises and computer equipment where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are taken to income or expenditure on a straight-line basis over the period of the lease.

(m) Inventories

Inventories are carried at the lower of cost and net realisable value. Cost is determined using the first-in, first-out method. The cost comprises all costs in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

3. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGEMENTS

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The critical accounting estimates and assumptions are stated below:

(a) Estimated impairment of non-financial assets

Property, plant and equipment, intangible assets and development projects-in-progress are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

(b) Impairment of trade and other receivables

Management reviews its receivables for objective evidence of impairment at least quarterly. Significant financial difficulties of the debtor, the probability that the debtor will enter bankruptcy, and default or significant delay in payments are considered objective evidence that a receivable is impaired.

In determining this, management makes judgement as to whether there is observable data indicating that there has been a significant change in the payment ability of the debtor, or whether there have been significant changes with adverse effect in the technological, market, economic or legal environment in which the debtor operates in. Where there is objective evidence of impairment, management makes judgements as to whether an impairment loss should be recorded as an expense.

In determining this, management uses estimates based on historical loss experience for assets with similar credit risk characteristics. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between the estimated loss and actual loss experience.

4. SHARE CAPITAL

The 8,601,000 shares are fully paid and held by the Minister for Finance, a body incorporated by the Minister for Finance (Incorporation) Act (Cap. 183, 2014 Revised Edition). The shares have no par value.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2015

22. RELATED PARTY TRANSACTIONS (Cont'd)

	2014/15 S\$	2013/14 S\$
(e) Compensation of key management personnel		
Salaries and other short-term employee benefits	2,280,829	2,363,039
CPF contributions	94,107	100,880
Board members' allowances	186,469	157,364

The Authority's key management personnel is defined as the Board Members and the Executive Committee members. The Executive Committee oversees the planning, directing and controlling of the activities of the Authority.

23. FINANCIAL RISK MANAGEMENT

(a) Credit Risk

The Authority's exposure to credit risk arises from customers and financial institutions. Concentration of credit risk relating to trade receivables is limited due to its varied customers. Cash and deposits are placed with Accountant-General's Department under Whole-of-Government Centralised Liquidity Management and Statutory Board Approved Funds Scheme as well as high credit quality financial institutions. Credit risk is thus minimised. The maximum exposure at the end of the financial year, in relation to each class of recognised financial asset, is the carrying amount of those assets as indicated in the statement of financial position.

(b) Liquidity Risk

The Authority monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Authority's operations. The Authority does not have a significant exposure to liquidity risk at the end of the reporting period.

(c) Interest Rate Risk

The exposure to risk for changes in interest rate relates primarily to deposits placed with Accountant-General's Department under Whole-of-Government Centralised Liquidity Management and high credit quality financial institutions.

(d) Currency Risk

The Authority is not subject to any foreign exchange exposure.

(e) Capital Risk

Minister for Finance, a body incorporated by the Minister for Finance (Incorporation) Act (Cap. 183, 2014 Revised Edition) is the only shareholder of the Authority. Dividend payment to the shareholder is made in accordance with the Capital Management Framework for Statutory Boards.

The Authority manages its capital to ensure that it will be able to continue as a going concern while fulfilling its objective as a statutory board. The capital structure of the Authority consists of share capital and accumulated surplus. There were no changes in the capital management approach during the financial year and the Authority is also not subject to externally imposed capital requirements, except for those mandated by the Ministry of Finance.

24. SUBSEQUENT EVENT

The Accounting and Corporate Regulatory Authority (Amendment) Act 2014 took effect on 15 May 2015. The Act stipulated that, amongst others, following sums collected by the Authority are to be paid into the Government Consolidated Fund:

- (a) any penalty for late payment or late filing;
- (b) any financial penalty, and interest for late payment of the financial penalty; and
- (c) any sum for the composition of any offence.

Following this, the Authority may be required by the Minister to channel part of its fines revenue collected in the past to the Government Consolidated Fund. Under Section 3 of the Statutory Corporation (Contribution to Consolidated Fund) Act (Cap. 319A, 2004 Revised Edition), the Minister may, by notice in writing, require any specified statutory corporation to pay into the Consolidated Fund within the period specified in the notice the whole or part of the amount in the funds of that statutory corporation which, in the opinion of the Minister, is not required for performing its functions and duties. The estimated amount to be paid into the Consolidated Fund is S\$33 million.

25. COMPARATIVES

When necessary, the comparative figures in the financial statements have been adjusted to conform with changes in the presentation in the current financial year.
